AI Engineer who ships practical AI agents and full-stack products, cutting manual workflows and driving engagement for teams and platforms at scale.

Skills

Languages: JavaScript, TypeScript | **Frontend:** Tailwind CSS, React, Next.js, Clerk, Shadcn UI, Framer, Recoil, Zustand, React Query, Zod | **Backend:** PostgreSQL, Neon, Supabase, REST, GraphQL, Prisma | **Testing:** Postman, Jest, Vitest, Cypress, Playwright, Ngrok | **AI:** OpenAI, Claude, Evals, Agents, Rag, Fine-Tuning, Ollama

Work experience

PSci Labs | AI Engineer

Remote | 05.2025 - 11.2025

- Built React components for **AI citation** context in Word and **PDF** documents, boosting review speed 30%.
- Developed an **AI agent** to generate and edit **PowerPoint** slides, cutting manual creation time by 50%.
- Enhanced chat UI with **slash** commands, **@file** includes, and TipTap for a smoother experience.

Vincera AI | AI Engineer

Remote | 01.2025 - 05.2025

- Designed a **multi-agent AI** system orchestrating sales and executive workflows via Telegram and email.
- Built **AI agents** for Excel analytics, PDF extraction, and Gmail/Calendar prioritization, cutting work 50%.
- Delivered a production-ready **automation** stack with n8n, Supabase, secure APIs, and modular workflows.

Kingdom Global Ventures | Full Stack Engineer

Remote | 10.2024 - Present

- Engineered event platform with AI live-streaming, **100+** language translation, serving **10K+** users.
- Launched **AI-powered** notes/highlights boosting user session duration by **25%** via live-caption interactivity.
- Built scalable dashboard & **UI/UX** for event analytics, slashing onboarding time by **40%** for enterprises.

Memorang | Software Engineer Intern

Remote | 05.2024 - 09.2024

- Refactored UI components to enhance user experience, resulting in a **25% increase** in user satisfaction.
- Collaborated cross-functionally using Supabase vector embeddings to improve search accuracy by 30%.

OneHeadlight | Front End Engineer

Remote | 07.2023 - 01.2024

- Developed **9+ reusable** React components, enhancing UI efficiency by 30% and reducing development time.
- Crafted **pixel-perfect** UIs across features, ensuring 100% brand compliance and enhancing UX.

Projects

AgentKit

[View in Github](#)

- Built production-ready AI agent starter with web search, auth, persistence, and streaming chat.
- Improved developer velocity with clean architecture and **tooling**, supporting 10+ rapid deployments.

Writora AI

[View in Github](#)

- Developed an **AI solution** that transforms **video/audio** into blog posts in under 30 seconds.
- Achieved **40+ unique users** within **24 hours of launch**, generating 3,000 impressions shortly thereafter.

Education

Graphic Era University | Bachelor's Degree

India, Dehradun | 07.2020 - 07.2024

Bachelor of Technology in Computer Science and Engineering
