

AI Engineer with 3+ years (1.5+ AI-focused) building multi-agent LLM systems & RAG pipelines for product teams. Cut manual workflows up to 50% via agent orchestration, evals & full-stack integration (Python, TS, React).

Work experience

EY Studio+ | Software Engineer Remote, Canada | 04.2026 - Present

- Architected **server-driven UI** for an MVP, enabling scalable dynamic interface rendering.
- Implemented organization-based dynamic theming, updating the app UI when users switch organizations.

Vincera AI | AI Engineer Remote, Romania | 03.2025 - 04.2026

- Designed **multi-agent workflows** for sales and executives across Telegram and email.
- Built **AI agents** for Excel, PDF extraction, Gmail, and Calendar, reducing manual effort 50%.

PSci Labs | AI Engineer, Freelance Remote, USA | 04.2025 - 11.2025

- Built React **citation** components for **Word/PDF** review, improving review speed by 30%.
- Developed **PowerPoint AI agent**, reducing manual slide-creation time by 50%.

Kingdom Global Ventures | Full Stack AI Engineer Remote, Canada | 10.2024 - 03.2025

- Built **AI notes** and highlights from live captions, increasing session duration by 25%.
- Shipped **live-event dashboard** with multilingual streaming and translation across 100+ languages.

Memorang | Software Engineer Intern Remote, USA | 05.2024 - 09.2024

- Refactored reusable UI components, improving user experience and increasing satisfaction by 25%.

OneHeadlight | Front End Engineer Remote, USA | 07.2023 - 01.2024

- Built 9+ reusable React components, improving UI efficiency and reducing development time 30%.

Skills

Languages: JavaScript, TypeScript, Python | **Backend:** Node.js, PostgreSQL, Supabase, REST APIs, GraphQL, Prisma, Docker | **AI/LLM:** OpenAI, Anthropic, LLMs, AI Agents, Multi-Agent Systems, RAG, Tool Calling, Evals, Fine-Tuning, MCP, LangChain, Langfuse, Vercel AI SDK | **Frontend:** React, Next.js, Tailwind CSS, Shadcn UI, Clerk, Framer Motion, React Query | **Testing & Dev Tools:** Jest, Vitest, Cypress, Playwright

Projects

AgentCN View in Github

- Built a **CLI** and hosted registry enabling **one-command installation** of reusable, editable **AI agents**.
- Reached **175** downloads on launch day by simplifying **AI agent** discovery and installation workflows.

AgentKit View in Github

- Built production-ready **AI agent** starter with **web search**, authentication, **persistence**, and streaming chat.
- Accelerated **AI application** launches with **CI/CD**, clean architecture, and reusable developer tooling.

Education

Graphic Era University | Bachelor's Degree India, Dehradun | 07.2020 - 07.2024

Bachelor of Technology in Computer Science and Engineering
